

To Whom it May Concern,

I am outraged that the N.A.B. is trying to stop XM from providing its listeners what we want. Besides we "PAY" for the service so we should get what we pay for. XM radio provides a great service since we have more choices and better programming than cheesy FM or AM radio. I urge you and your colleagues to put a stop to NAB's bullying. Thank you very much for your time.

Regards,

Luis Quezada
